PROFILE

Dedicated and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, complemented by expertise in React.js framework. A proven record of delivering top-notch dynamic, responsive, and user-friendly websites. Expert at collaborating with multidisciplinary groups to drive project success. Keeping up with industry best practices and new developments in technology to guarantee cutting-edge development solutions.

WORK EXPERIENCE

Front-End Developer, Project Lead

Wansenziroz   AUGUST 2023-AUGUST 2024

- Leadership & Team Coordination: Led a multidisciplinary team of developers, effectively managing project timelines and deliverables. Assigned tasks based on team members' strengths, ensuring optimal productivity and high-quality outputs.
- Version Control & Collaboration: Established and maintained GitHub repositories for collaborative development, fostering a streamlined workflow that enhanced code integration and project continuity.
- Web Development: Spearheaded the development of responsive, user-friendly websites utilizing React.js as the framework, HTML, CSS and Javascript. Focused on delivering high-performance websites that met client expectations and adhered to best practices in web design and development.

Front-End Instructor

CODE RHYTHYM   MAY 2024-CURRENT

- Curriculum Development: Designed and delivered a comprehensive curriculum focused on front-end web development, with an emphasis on HTML, CSS, JavaScript, and React.js.
- Interactive Teaching: Conducted live, interactive sessions via Zoom, engaging students in hands-on coding exercises and projects to reinforce learning and practical application of skills.
- Student Mentorship: Provided ongoing mentorship and guidance, offering personalized feedback on assignments and projects to help students refine their skills and achieve their career goals.
- Project-Based Learning: Led students through the development of real-world projects, ensuring they gained practical experience and built a portfolio showcasing their capabilities.

CURRENT

FREELANCING

- Custom Web Solutions: Developed bespoke websites for various clients, employing HTML, CSS, Bootstrap, JavaScript, and React.js to create dynamic and responsive user interfaces.
- Client Consultation: Worked closely with clients to understand their vision, offering insights and technical expertise to bring their ideas to life through customized web solutions.
- Responsive Design: Ensured all websites were fully responsive, providing an optimal user experience across different devices and screen sizes.
- Project Management: Managed multiple projects simultaneously, delivering high-quality results within tight deadlines while maintaining excellent client satisfaction.
